College Specific Scholarships

College-Specific Scholarships displays a list of merit-based scholarships from participating colleges for which you may meet the residency and academic eligibility requirements. Academic, merit-based scholarships are often the largest financial awards that an institution offers. Typically, you are automatically considered for these scholarships when you apply to a college rather than having to apply for the scholarship separately.

1. Select **Colleges** and then from Scholarships and Money, select **College-Specific Scholarships**.
2. Review the list of scholarships for which you are a match based on the academic and residency information in your Naviance account or the location of your school.
 - Naviance Student displays a card for the scholarships with the highest amount if you are a match for several scholarships at the same institution.
 - Naviance Student randomizes scholarships and displays them in a different order each time a student visits or refreshes the page.
3. Optionally, enter or edit your academic information to find scholarships that are a match. Naviance does not save the data points you manually enter on this page.
4. From the scholarship cards:
 - Access the college profile. You can also find merit-based and other scholarship information for some colleges from the Overview or Costs section of their college profile or your SuperMatch results.
 - Favorite the institution which may lead to an invitation to connect with the college.
 - Review scholarship information.

The screenshot displays the 'Scholarships & Money' section of a Naviance account. It features a search filter for 'College-Specific Scholarships' and a grid of scholarship cards. Each card provides details for a specific college, including the scholarship amount, total annual cost, and the percentage of total annual cost covered by the scholarship.
