## Overview

Use the Scholarships and Money section in Naviance Student to search for scholarships and maintain a list of scholarships for which you are applying. There are four features in this section.

- College-Specific Scholarships
- National Scholarship Search
- Scholarship Search
- Favorite Scholarships

## College Specific Scholarships

College-Specific Scholarships displays a list of merit-based scholarships from participating colleges for which you may meet the residency and academic eligibility requirements. Academic, merit-based scholarships are often the largest financial awards that an institution offers. Typically, you are automatically considered for these scholarships when you apply to a college rather than having to apply for the scholarship separately.

1. Select **Colleges** and then from Scholarships and Money, select **College-Specific Scholarships**.
2. Review the list of scholarships for which you are a match based on the academic and residency information in your Naviance account or the location of your school.
  - Naviance Student displays a card for the scholarships with the highest amount if you are a match for several scholarships at the same institution.
  - Naviance Student randomizes scholarships and displays them in a different order each time a student visits or refreshes the page.
3. Optionally, enter or edit your academic information to find scholarships that are a match. Naviance does not save the data points you manually enter on this page.
4. From the scholarship cards:
  - Access the college profile. You can also find merit-based and other scholarship information for some colleges from the Overview or Costs section of their college profile or your SuperMatch results.
  - Favorite the institution which may lead to an invitation to connect with the college.
  - Review scholarship information.
