The designs included in this document are examples of the updated experience and may change prior to release.

## New Student Homepage

### Personalized Experience Based on Selected Future Plan

Future planning will prominently display on the student homepage along with:

- Favorited Careers (found within Career Goals section)
- Skills and Top Knowledge Sets needed for favorited careers
- Specific plan highlights based on student's selected post-secondary plan

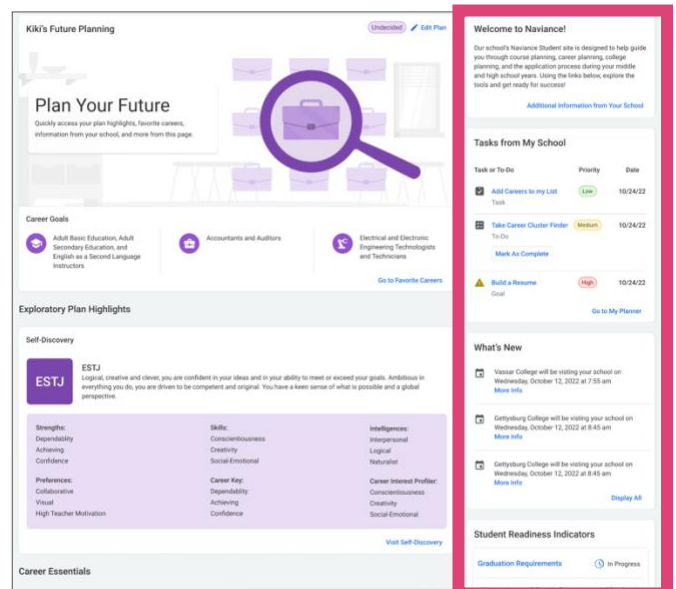

### Primary Focus on Future Plan

Homepage content moving to the right side of the page:

- Welcome Message, including additional info from the school
- Tasks
- What's New
- Info Box
- Student Readiness Indicators, where applicable

Content moving to top navigation:

- Curriculum (Planner section)
- Test Prep (Planner section)
- x2VOL (Careers section)

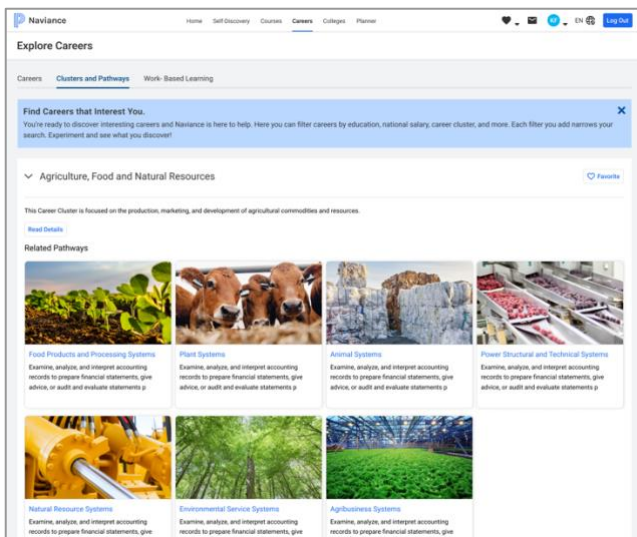

## Redundant Content Removed

The homepage content will be streamlined to ensure the most relevant information is front and center. The homepage will no longer display the following:

- My Favorites (Favorite lists will still be available from the Heart icon and the corresponding sections in the top navigation)
- Language selector for Welcome Message (Multi-Language Support provides translation of the entire page)
- Careers homepage
- Document Resources (now consolidated within Documents Shared With Me)

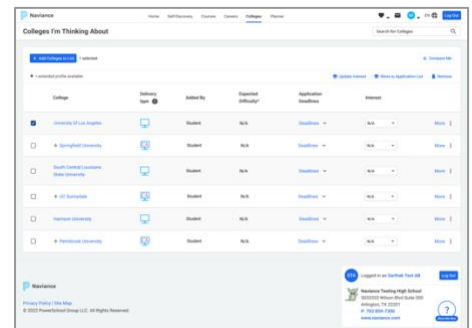

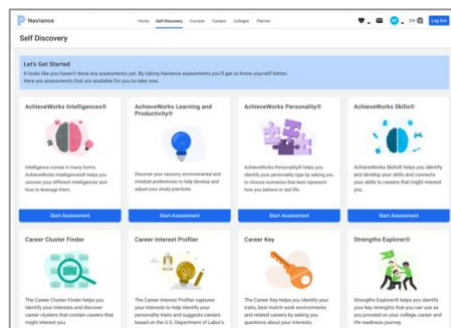

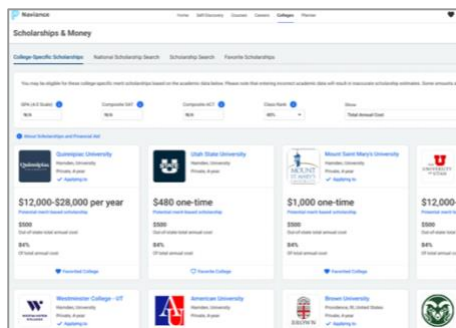

## Modernized Experience

- Explore Cluster and Pathways, Explore Careers, Cluster/Pathway/Career profiles, and Favorite Careers and Clusters
- College-Specific Scholarships, Scholarships Search, and Favorite Scholarships
- Colleges I'm Thinking About, Colleges I'm Applying To, and College Lookup

## New Naviance Student Help Center

Naviance Student will provide a help center where students, parents, and guardians can:

- Access help articles with step-by-step instructions for using the tools
